West Virginia Adjutant General's update on RISE West Virginia case management

CHARLESTON, W.Va. - West Virginia National Guard's Adjutant General, Maj. Gen. James Hoyer, issues the following update on RISE West Virginia's case management status:

This week, crews completed one bridge on Monday and have started another bridge project in Nicholas County, bringing the number of completed bridges to two. There are an additional 70 bridges in the case management process, an increase of 15 from last week.

Also this week, two sub-recipient agreements were signed with the West Virginia Housing Development Fund for multi-family housing and West Virginia Volunteer Organizations Active in Disasters (VOAD) for reconstruction and rehabilitation construction. Both sub-recipient agreements will help move the RISE West Virginia program forward to assist more families in need while increasing capacity for construction and rehabilitation of homes.

At this time, 25 homes are in active construction for the RISE West Virginia program, while three homes are in the demolition phase.

The number of outstanding Housing Program cases is 479. The current breakdown by construction type is as follows: 50 homes are complete, 289 cases require total reconstruction, 61 cases require some form of rehabilitation actions, 109 cases require new mobile home replacement, and 17 cases are awaiting initial project type and undergoing the damage assessment process. In an effort to maximize program participation for West Virginia flood victims, the intake process remains open and VOAD continues to research more than 1,300 cases that were previously closed out.

There are 63 other reconstruction and mobile home unit replacement projects at varying points in the initial construction phase, including permitting, inspections and asbestos abatement. There are 15 other projects awaiting signed homeowner agreements to move forward in the construction process. We have received 86 completed environmental reviews, and increase of eight from last week, which will allow cases to move forward through the final phases of the case management process and into the construction management phase.

Currently, 11 projects are in the asbestos inspection and abatement phase for the Slum and Blight Program. There are an additional 176 projects currently in the Slum and Blight program, 151 of which are ready for the environmental review process. An additional 34 projects are in the case management process pipeline for removal that are considered an “imminent threat” from the county or municipality, meaning those properties pose a threat to the health and safety of the public. These projects will move from the “imminent threat” phase to the environmental review process before demolition can begin. The Slum and Blight program is still accepting applications in all counties affected by the 2016 flood.

Any families who feel they still have any unmet needs or who are looking for an update on their case are urged to contact the new VOAD office over the phone at 304-553-0927 or through email at DisasterRecovery@wv.gov. A hotline is also available for anyone needing to report fraud with regard to the RISE West Virginia program at 1-866-WVWATCH (1-866-989-2824).
